For the owner to confirm before submission: the author list and its order, every ORCID, the corresponding address, and the affiliation name. This paper and the mechanism paper must use the same form of the affiliation; “Oviqo Research” is used here and the other manuscript reads “Oviqo Private Limited”.

Word count. Body, Introduction through the end of the Conclusion: approximately 9,300 words. Including the reference list and the two appendices: approximately 10,100. Counted from the built PDF by `code/qa_gates.py`.

Declarations

Disclosure statement. The authors report no conflict of interest.

Funding. This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.

Data availability statement. The training and evaluation code, the measurement pipeline, and the result files from which every reported value is generated are available from the authors.

AI usage declaration. During the preparation of this manuscript the authors used a generative AI tool to assist with language editing and refinement of the text. The authors reviewed and edited all output and take full responsibility for the content of the paper. Generative AI was not used

to generate or analyse the study’s data, which were produced entirely by the evaluation pipeline described in the paper.
